☐ Meaningful Activity Programming

☐ What did we Learn? How did it change?

☐ Making the conversation easier

☐ Recognizing loss identifying emotions and feelings

☐ Loss and Hope Picture Boards – 4 simple questions
Loss and Hope Picture Board Activity

- What I miss most?
- My biggest fear right now?
- Staff can help me by?
- My HOPE for the Future is?

RECENT DATA:
Older Adults 75-85+ - Represent 7.2% of Covid cases
Older Adults 75-85+ - Represent 58.8% of Covid deaths

- Suicidal desire in older adults has been increased in the wake of the pandemic marked by feelings of thwarted belongingness and perceived burdensomeness
- This deepens my awareness of the importance of creating meaning in the care and services for the moment and the future
Older Adults and Re-engagement

engAGED – Best Practices for Helping Older Adults Stay Socially Engaged

- AASC Feeds the Pets
- Helping Neighbors Initiative
- Weaving Hearts Intergenerational Program
